Task description	Case Study You are tasked with producing a project plan for a 2-minute accessible video on study skills to accompany the learning materials on a college course. You need to present each step of your project plan to your supervisor. What things do you need to take into consideration when producing this video?	
Description of how to do the task	Your client sent the following email: “Hello, Thank you for agreeing to create a video on ‘Study skills’ for our new e-learning resource. The video you produce must be accessible to students with additional learning needs. We ask that you send us a project proposal including your ideas and concept for the video, and how you will ensure it is accessible for all students.” You must plan each aspect of your project, including the level of interaction, the type of authoring tools you will use and why, and the steps you will take to make the video including storyboarding the concept.	
Estimated time to do the task	4 hours
